Voted (on motion of Herbert M. Dutcher, Chairman of the Finance Committee): That when this meeting adjourns it adjourn at 10.30 p.m., to meet on Tuesday evening, April 11, 1922, at eight o'clock.

Article 3 taken up. (Reports of Committees.) The Planning Board through its Chairman, Howard B. S. Prescott, presented the report of that Board which was read by the Town Clerk and was as follows:

REPORT OF THE ARLINGTON PLANNING BOARD ON PLAYGROUND  
OR RECREATION CENTER IN BRATTLE STREET DISTRICT

The Town Meeting of September 8, 1921 instructed this Board to bring in its recommendations on the above matter at the next annual meeting.

Available for this purpose are two areas, already owned by the Town; neither of them is distant from Brattle Street, and they are the more desirable as not being located on a main line of travel, but easily accessible. 1. About an acre in area, near the new Junior High School, is being graded for these uses. Its natural location makes it unusually attractive. 2. The Town property between the Senior High School and the railroad, originally purchased for use as playground and park. There

are over ten acres here, beyond what should be set apart for school use, already partly filled, at no expense to the Town.

Before any large increase in filling the second, study should be made of its proper development and the best disposal of this portion of Sucker Brook. It is possible to include an outdoor swimming pool, convertible into a winter rink. There is considerable material on the lot for further filling, when an appropriation can be made for the purpose.

If arrangements can be made with the railroad, there will be opportunity for a subway connection to the Summer Street Boulevard. In addition to the above, there is ample room for baseball, football, running track, tennis courts and grandstand, besides about four acres balance for general recreation. The Spy Pond Athletic Field is two acres less in area — over eight acres total — and about two acres of this are not required for the above activities.

Therefore, it does not seem necessary or advisable, in the opinion of this Board, to purchase additional land at this time, for such playground or recreation center. Also that such areas as may be purchased in the future should not border on main thoroughfares.

While there has been a large increase in population, both in numbers and density, until equal to that of a small city, reservation and development of these areas have been postponed. It can be assumed that the delay has not been due to anticipation of future gifts of such land, as has been generously donated in the past.

It is the duty of this Board to embrace the opportunities to extend its report, and include recommendations for future action, so that the Town may at least equal in this respect the advantages of those of less size and valuation. As nominal expense is involved, at this time, it is hoped that they may seem to be worthy of consideration and adoption.

It recommends that this meeting authorize the Park Commissioners to submit, not later than the next annual meeting, a programme for the taking of reservations for playgrounds or recreation centers in keeping with the growth of the Town. This to include also plans and costs of developing any land now owned by the Town and available for this purpose.

It further recommends that said Park Commissioners shall have charge of the development and maintenance of such properties as they now control, or such as may be turned over to them, by vote of the town meetings, from time to time together with the expenditure of such appropriations as may be voted for this purpose by said Town Meetings.

To delegate the above authority and duties to the Park Commissioners would not prohibit them from authorizing any temporary agents when desirable.

Russell Park is already under their control, and a line can be established between any other such present property and any portion which should properly remain under control of the School Committee. It would seem unfair and inadvisable to burden the latter with the increasing responsibilities of land which is not necessary for educational buildings and use.

The Planning Board submits this report not only with the desire to promote the needs of the Brattle Street District, but also that there should be a suitable selection made for similar projects throughout the Town, developed as fast as finances will permit.

Respectfully submitted,

Arlington Planning Board,  
By H. B. S. PRESCOTT, *Chairman.*

CHARLES B. DEVEREAUX,  
CHARLES H. HIGGINS,  
NELSON B. CROSBY,  
*Selectmen of the Town of Arlington.*

Arlington, October 23, 1922.

By virtue of the foregoing warrant I have notified and warned the legal voters of the Town of Arlington to meet at the time and place therein mentioned, by leaving at every dwelling house in the Town a printed attested copy of the warrant, by posting an attested copy at the doors of the Town Hall, and in five conspicuous places in the Town, seven days

at least before said meeting. A notice of the meeting was also published in the *Arlington Advocate*.

(Signed DANIEL M. HOOLEY, *Constable of Arlington.*

Arlington, October 26, 1922.

Pursuant to the foregoing warrant the Town Meeting members, representing the seven precincts in the Town, met in the Town Hall on Thursday the twenty-sixth day of October, 1922 and were called to order at eight o'clock in the evening by the Moderator, John A. Colbert.

By unanimous consent the reading of the warrant was waived, each being supplied with a printed attested copy.

The Constable's return on the warrant was read by the Town Clerk.

Article 1 taken up. (Reports of Committees.) Frederick W. Hill, Chairman of the Finance Committee, presented the report of that committee in printed form and the same was received.

Article 1 was then laid upon the table.

Article 9 taken up. (Proposed site for car storage area.) Under this article the Finance Committee recommended that no authorization be given for the sale, conveyance or other disposition of all or any portion of the land described in Article 9 of the warrant.

William A. Muller offered the following substitute motion: That the Board of Selectmen be and hereby is authorized and empowered in the name and on behalf of the Town to sell and convey at private sale any portion or all of the parcel of land situated in said Arlington, bounded and described in Article 9 of the warrant, and to execute, acknowledge, and deliver a proper deed or deeds for that purpose upon such terms as the Selectmen shall consider proper.

In support of his motion Mr. Muller outlined in a general way the reasons for his motion, stating that in view of the fact that the Boston Elevated Railway Company had acquired a large tract of land in the residential section of East Arlington for a car storage area, a protest meeting had been held and

that the signatures of over six thousand citizens of the Town had been signed to a petition in protest of the use of this land for such purposes. The Joint Board of Selectmen and Board of Public Works, under the advice of an expert engineer, presented the area as described in Article 9 as an alternative location for the purposes of the Company.

Mr. Charles B. Devereaux, Chairman of the Joint Board, then explained the action of the Board and illustrated by means of slides the area described in the article and the efforts of the Board in arriving at a solution that would be acceptable to the Company and the least disadvantageous to the Town.

Mr. Alexander H. Rice, Chairman of the School Committee, opposed the substitute motion, giving as the reason of his Committee the depriving of the Town of the land in question for future playground purposes. The matter was discussed by Messrs. Straight, Schwamb, Drouet and others, and on the question being called for the substitute motion was declared lost, 74 voting "Yes" and 131 voting "No."

The motion as offered by the Finance Committee was then taken up and it was

Voted, That the Town do not authorize the sale, conveyance, or other disposition of all or any portion of the land situated in said Arlington bounded and described in Article 9 of the warrant.

Article 10 taken up. (Proposed Widening of Mill Street.)

The Finance Committee recommended that it is undesirable at the present time to widen all or any portion of Mill Street.

Mr. Muller offered the following substitute motion:

That the Town deems it desirable to widen all of Mill Street eventually, in order that large tracts of land in the northeasterly section of the Town may be opened for development with a direct communication to Arlington Center, Jason Street, the Locke property and ultimately to Pleasant Street; but that for the present it is desirable to widen Mill Street from Massachusetts Avenue for a distance of approximately five hundred and thirty feet only, provided the cost of widening such part of Mill Street does not exceed \$50,000 in addition to

any amount received as the purchase price in the sale of a portion of the land described in Article 9 of the warrant.

In view of the action taken under Article 9 and the question on the substitute motion being called for the substitute motion was declared by the Moderator as not being carried. The question then came on the recommendation of the Finance Committee, and it was

Voted, That the Town deemed it undesirable at the present time to widen all or any portion of Mill Street.

Article 3 taken up. (Change of name of Albemarle Street.)

Voted (on recommendation of the Finance Committee), That the Town do not change the name of Albemarle Street to Gloucester Street.

Article 7 taken up. (School Accommodations.)

Voted, That a special Committee of five citizens be appointed by the Moderator for investigation of the matter of additional school accommodations, such committee to report not later than the next annual Town Meeting, and that the sum of \$1,000 be appropriated for the use of said Committee.

Voted, That when this meeting adjourns it adjourn to meet on Wednesday evening, November 8, 1922, at eight o'clock.

Two hundred and five Town Meeting members attended the meeting.

The meeting adjourned at 11.30.

A true record, attest:

THOMAS J. ROBINSON, *Town Clerk.*

#### ADJOURNED TOWN MEETING, NOVEMBER 8, 1922

Pursuant to adjournment from October 26, 1922, the Town Meeting members met in the Town Hall on Wednesday evening, November 8, 1922 and were called to order at eight o'clock by the Moderator, John A. Colbert. One hundred and eighty-seven members attended the meeting.

Article 1 taken from the table. (Reports of Committees.)

Voted, That the various articles in the warrant be now

taken up and that the recommendations of the Finance Committee under the articles in their report be considered as now before the meeting, to be voted upon without further motion.

Article 2 taken up. (Building Laws.)

The Committee on By-laws presented the following report and same was received:

*To the Citizens of Arlington:* Your Committee on By-laws offers as its report the printed pamphlet which has been placed before the voters entitled "Proposed Building Laws, Town of Arlington." In this pamphlet we have tried to include all the requirements necessary for the town at the present time. The laws proposed are on the whole much the same as the laws now in force; but we have amended and added to the old laws so as to make them complete and up to date. The changes made meet the approval of our town officials whose duty it will be to see to their enforcement.

We have not included in our proposals any attempt to restrict certain types of buildings to specified areas or zones of the town, although this was part of the work given to the committee. We found that to be a matter requiring much study and involving so much time that a satisfactory result could not be obtained for presentation to this meeting.

Your committee, originally five in number, has been reduced by death and resignation to three, and these remaining members, having devoted over a year to this work, are now anxious to be relieved of further duties in this connection. Such work as now remains unfinished we would ask to be referred to a new committee. We therefore present this report as a final report and ask that it be accepted and the committee discharged.

Respectfully submitted, for the Committee.

(Signed) LINDSEY K. FOSTER, *Chairman.*

On motion, it was

Voted, That the Building Laws as presented by the Committee on By-Laws be taken and acted upon article by article and section by section and that they be read by the Town Clerk.

On the conclusion of the reading of the Building Laws, the same were accepted and adopted as amended as follows:

## BUILDING LAWS TOWN OF ARLINGTON

### ARTICLE 15

*Section 1.* A Building Inspector shall be appointed annually by the Selectmen, and he shall continue to hold office until his successor has been appointed and qualified.

*Sec. 2.* The inspector shall examine all buildings in the process of construction, alteration and repair, including plumbing and gas fitting, and setting and maintenance of boilers, heaters and furnaces; and, where necessary, shall take proper measures to secure compliance with all by-laws of the town relating thereto. He shall make an annual report of his work to the Selectmen with such recommendations as he may deem suitable.

*Sec. 3.* No building intended to be used for dwelling purposes shall be erected until a permit therefor has been issued by the Building Inspector. No other building, except one-story wooden buildings ten feet square or less, shall be erected without such permit. To obtain a permit, the person desiring it shall, before he proceeds to build or excavate for the foundation thereof, file with the inspector a notice in writing of his intention with such plans and specifications, or descriptions, as may be required by the inspector, together with a written authority from the owner or the agent of the property on which the structure is to be built, allowing the inspector and his assistants to enter the premises at all reasonable times and inspect the work of construction.

The foregoing shall also apply to additions and alterations.

*Sec. 4.* If the plans, specifications, or descriptions comply with the requirements of the statutes and these by-laws, the inspector shall issue a permit for such building, addition, or alteration. This permit shall be posted in a conspicuous place on the premises before actual work is commenced, and shall remain posted until the construction is completed.

*Sec. 5.* All buildings shall be divided into three classes.

A first-class building shall consist of fireproof material throughout, with floors constructed of iron, steel or reinforced concrete beams, filled in between with terra cotta or other masonry arches or with concrete or reinforced concrete slabs; except that wood may be used only for under and upper floors, windows and door frames, sashes, doors, interior finish, hand rails for stairs, necessary screens, sleepers bedded in the cement, and for isolated furrings bedded in mortar. There shall be no air space between the top of any floor arches and the floor surface.

Second-class buildings shall be all buildings not of the first class, the external and party walls of which are of brick, stone, iron, steel, concrete, reinforced concrete, concrete blocks or other equally substantial and fire-resisting material.

All wooden frame buildings shall be third class.

*Sec. 6.* Unless the inspector decides otherwise on account of the proposed use, no building shall hereafter be erected, and no existing building shall be altered or added to, thereby giving it a frontage of more than fifty feet, without one or more partition walls of brick or some other fire-resisting material, extending from the bottom of the cellar, or from a foundation wall, to eight inches above the upper side of roof, which shall be laid and imbedded in mortar in said wall. Such walls shall not be more than fifty feet apart, and shall extend throughout the depth of the building.

If a continuous basement is desired, brick partition walls may start at first floor and be supported on piers or columns, and the ceiling over basement shall be of wire lath and plaster or other fire-resisting material, and all steel work shall be protected.

The foregoing shall not apply to a dwelling house designed for occupancy by one family.

*Sec. 7.* All buildings hereafter erected or altered which are to be used in whole or in part for business or manufacturing purposes, or as places for public meetings, within the area one hundred feet back from the side lines of the following streets: Massachusetts Avenue from the Cambridge line to the Lexington line, Broadway from the Somerville line to Medford Street, shall be of first or second-class construction, with non-combustible roof coverings and metal gutters.

If an existing wooden building occupied in whole or in part for business or manufacturing purposes, within the above limits, is damaged more than sixty per cent of its value above foundations, it shall not be repaired, and if rebuilt it must conform to the foregoing.

*Sec. 8.* All buildings hereafter erected, designed for occupancy by more than two families, or as lodging or boarding houses, shall be subject to the provisions of Chapter 145 of the General Laws, known as the "Tenement House Act," and all additions and amendments thereto. No existing building shall be remodeled or altered for occupancy of more than two families except subject to the foregoing.

*Sec. 9.* All double houses shall have a fire-resisting partition wall between the tenements, consisting either of a brick wall, not less than twelve inches thick, extending from the cellar bottom to the under side of the roof boarding, or of a brick wall, not less than twelve inches thick, extending from the cellar bottom to the top side of the first floor timbers, and above that, to the under side of the roof boarding, of two by five-inch studding, wire-lathed and plastered on both sides so as to make a smoke-tight barrier between the tenements.

*Sec. 10.* No part of a wooden building shall hereafter be placed at a less distance than five feet from the line of the lot upon which the building is to be located, or within ten feet of another wooden building, except where a brick or other fire-resisting external wall of a thickness and in the manner prescribed for external walls of fire-resisting buildings is substituted for a wooden wall.

No part of any structure except fire escapes ordered by public authority after the building is erected and cornices shall project over the line of any public way. No cornice shall project more than three feet over the sidewalk. No such projections shall be less than ten feet above the grade of the sidewalk.

#### FOUNDATIONS

*Sec. 11.* Excavations for foundations shall be made not less than six inches beyond the outside of foundation walls and shall not be back filled until inspected. The foundations of all buildings for dwelling, business or manufacturing purposes

shall be walls of masonry and piers of masonry or iron and shall be laid in cement mortar. Any wooden building not a dwelling, not more than two stories in height, may, with the approval of the inspector, be built wholly on piers or posts. The foundations of all buildings shall rest on solid ground or leveled surfaces of solid rock, or on piles, concrete, or other solid substructure. Such foundation other than solid rock shall be not less than four feet below the adjacent surface of the ground exposed to the frost.

Piazzas, porches and bay-windows shall have a suitable foundation of stone, brick, iron or concrete, built on solid bottom, not less than four feet below and extending not less than three inches above the finished grade, and no woodwork shall come below that grade.

All buildings used for human habitation shall have a foundation wall and a chimney both of masonry.

#### WOODEN BUILDINGS

*Sec. 12.* All wooden frame buildings shall be built with sills, posts, girts and plates, all to be mortised, tenoned, br and pinned together, except the plates, which may be mortised, or thoroughly spiked to studding and posts. All buildings shall be braced in each story and in cross-partitions if deemed necessary by the inspector.

In all wooden buildings not exceeding three stories in height the posts of which exceed twenty-two feet in length, the sills shall be not less than six by eight inches laid flatways, and the posts and girts not less than four by eight inches; in all such buildings the posts of which are twenty-two feet or less in length the sills shall be not less than four by eight inches, and the posts and girts not less than four by six inches; in all wooden buildings the studding of the outside walls shall be not less than two by four inches, set sixteen inches on centers; in all wooden buildings the studding in all partitions carrying floor timbers shall be not less than two by four inches, set not more than sixteen inches on centers, and resting on girders not less than six by eight inches. All window studding to be not less than three by four inches. Ledger boards may be used in place of girts in one and one-half story houses or in dwellings where

the attic floor is below the plates if the spaces back of ledger boards between studding shall be filled with joists of same size as wall studs cut in tight and filled with brick and cement mortar so as to prevent a draft in case of fire. All one and one-half story buildings shall have end girts mortised, tenoned and pinned together. All self-supporting walls or partitions above the first floor in any building shall be trussed in a manner approved by the inspector.

All timbers herein mentioned to be solid sticks excepting the plates, which may be in two pieces, each not less than two by four inches, thoroughly spiked together.

#### BRICK, CONCRETE OR TERRA COTTA BUILDINGS

*Sec. 13.* When the walls of a building are to be of solid concrete, concrete blocks or terra cotta blocks, they shall conform to the rules for brick walls so far as they apply and in addition concrete walls supporting floors and those exposed to the weather shall be mixed in the proportions at least as rich as one part of cement by volume to eight parts of sand and gravel or broken stone so graded and proportioned as to make a mixture without voids.

Concrete blocks shall be made of a mixture at least as rich as one part cement to four parts sand or fine gravel or broken stone properly graded to make a mixture without voids.

The bearing area of each block shall be at least two-thirds of the horizontal area occupied by the block.

The concrete in both walls and blocks shall be kept moist and shaded from the direct rays of the sun for at least four days after it is placed and no block shall be laid in a wall or foundation in less than thirty days after it is made.

All walls built of concrete or terra cotta blocks shall be so constructed that where they are to support any portion of a floor or roof the loads from the floor joists or other beams or timbers shall be distributed over the whole width of the wall at the point of support. This may be effected by the use of suitable wall plates or by filling the blocks with cement concrete. No method of construction in which the floor joists, beams or girders simply rest on one side of a concrete or terra cotta block will be approved or allowed to be used. When

terra cotta walls support wooden floor beams, girders or headers the timber shall project not less than four inches into the wall, and the wall shall be so constructed that the timber shall have full bearing for the whole of the area of its under side which projects into said wall.

All brick walls shall be built with proper bond and all intersections of walls shall be tied together with wrought-iron straps as often as every eight feet in height. Floor beams shall be anchored to brick walls on which they rest and to each other so as to form continuous ties across the building, wherever directed by the inspector, and at least every ten feet.

External walls of brick, concrete or terra cotta dwelling houses, if not more than twenty feet in height above the foundation walls, shall be not less than eight inches thick for their entire height; if more than twenty feet in height they shall be not less than twelve inches thick to the top of the second floor, and not less than eight inches thick for the remaining height; and if three stories, and more than twenty-five feet in height, they shall be not less than twelve inches thick to the top of the third floor, and not less than eight inches thick for the remaining height.

The external walls of all brick, concrete or terra cotta buildings other than dwelling houses, if not more than forty feet in height above the foundation walls, shall be not less than sixteen inches thick to the top of the upper floor, and not less than twelve inches thick for the remaining height; and if more than forty feet in height and not exceeding sixty feet in height, they shall be not less than twenty inches thick to the top of the second floor, and not less than sixteen inches thick to the top of the third floor, and not less than twelve inches thick for the remaining height; provided, however, that with the approval of the inspector the method known as "Mill Construction" may be used whereby the external walls are constructed of a series of piers, of such width as the inspector may approve, and of the thickness not less than prescribed for external walls, said piers to be connected by curtain walls well bonded to the piers, and not less than eight inches thick, in which all windows or other openings must be made. All floors must be supported on the piers and no portion of a floor shall for any reason be supported

on the curtain wall; and provided further that the external walls of all brick, stone, concrete and terra cotta buildings, not exceeding twenty-five feet in height and covering an area not exceeding two thousand square feet, to be used for stables or light mechanical or commercial purposes, may be not less than twelve inches thick.

Party walls and all partition walls of brick or concrete in all buildings other than dwelling houses with external walls not exceeding forty feet in height shall be not less than sixteen inches thick to the top of the second floor and not less than twelve inches thick for the remaining height and, in buildings having external walls exceeding forty feet in height, said party walls shall be not less than twenty inches thick to the top of the second floor, not less than sixteen inches thick to the top of the third floor, and not less than twelve inches thick for the remaining height; provided that where mill construction is used pilasters may be utilized with thoroughly bonded curtain walls not less than eight inches thick, the spacing of the pilasters to be satisfactory to the inspector and the thickness to be not less than that prescribed for party walls.

No opening or doorway shall be cut through or formed in a party wall or partition wall of any building without a permit from the Inspector of Buildings, and every such doorway shall have its top, bottom and sides of stone, brick or iron, and shall be closed by two fire-proof metal-covered doors or sets of doors satisfactory to the inspector, with an air space between them of at least four inches; said doors shall be hung to roll on approved metal tracks or swing in metal frames, or on iron hinges set in rabbeted brickwork or stonework; if wooden frames are used they must be entirely cased in metal applied as on approved fire doors.

#### PIERS AND COLUMNS

*Sec. 14.* All piers shall be built of the best quality of good, well burnt hard brick, laid in cement and sand mortar and well wet when laid in warm weather. Brick piers under lintels, girders or columns of brick buildings shall have a properly proportioned cap of cast iron or steel the full size of the pier. Brick piers and buttresses shall be bonded with through courses

leveled and bedded, and where their foundations rest upon piles a sufficient number shall be driven to insure a proper support.

Every pier, column, pillar or post resting on the earth shall have a base course of stone or concrete and, if supporting walls of masonry, shall have for a footing course a broad leveler of concrete, granite or ledge stone not less than twelve inches wider on all sides than the bottom area of said piers, columns, pillars or posts and not less than twelve inches thick.

All metal columns shall rest on square iron plates not less than one inch thick and of suitable strength to carry the load, supplied with lugs or sockets cast on to hold the ends of the columns in place, and unless the columns are cast with large flat-topped heads they shall have similar plates on top, on which the supported beams or girders shall rest. The length of the side of the bottom plates must be at least two and one-half times the diameter of the columns, and the length of the top plate or cast cap must be at least twice the diameter of the columns and at least equal to the width of the beam or girder which it is to support. Wooden columns supporting girders and floors shall rest on, and be capped by, one and one-half inch iron plates with lugs or sockets to receive the ends of the columns or with properly proportioned socketed casting not less than one inch thick. Metal columns placed one on top of another shall have a plate between them with lugs or sockets on both sides to fit into top and base of columns to prevent slipping, or capped columns may rest on each other. Metal columns shall be of such thickness as the inspector shall require but not less than five-eighths inches in any case and all columns shall have holes bored when and where directed by the inspector through the shell at right angles to the shaft, so as to show the thickness of the metal. All bearing parts of columns and plates shall be turned or planed to true surfaces.

#### FLOOR TIMBERS

*Sec. 15.* Floor timbers in dwelling houses, when of good, sound spruce set sixteen inches on centers, shall be of the following sizes: for a span not exceeding ten feet the timbers shall be not less than two by seven inches; for a span not exceeding

twelve feet the timbers shall be not less than two by eight inches; for a span not exceeding fourteen feet the timbers shall be not less than two by nine inches; for a span not exceeding sixteen feet the timbers shall be not less than two by ten inches; for a span not exceeding eighteen feet the timbers shall be not less than two by twelve inches; for a span not exceeding twenty feet the timbers shall be not less than two by fourteen inches; for a span not exceeding twenty-two feet the timbers shall be not less than three by twelve inches; for a span not exceeding twenty-four feet the timbers shall be not less than three by fourteen inches in size, or of size giving their equivalent in strength.

There shall be girders not less than six by eight inches under the main partitions and summers on floor timbers doubled, or their equivalent, under all cross-partitions in the first floor of all dwellings. Headers and trimmers of all openings more than four feet square in the first floor of dwellings shall be floor joists doubled or their equivalent. Beams carrying main or cross partitions in first floor shall be supported on piers or iron posts not more than seven feet apart, except that where larger girders are used the supports may be spaced farther apart with the approval of the inspector; trimmers in first floor over twelve feet in length shall be supported by a pier or post.

The attic floor timbers shall be not less than two by seven inches spaced sixteen inches on centers, for any attic, whether finished or unfinished, to which there is access and which can be used for storage and other purposes.

All floor timbers with a span from ten to sixteen feet shall have one row of bridging; all floor timbers with a span of sixteen feet or more shall have a bridging at least every eight feet and all bridging stock shall be not less than one by two inches.

All cutting of floor timbers for the passage of pipes shall be on their upper edges, and no cut shall exceed two inches in depth, or be made more than three feet from the point of support of the timbers unless the consent of the inspector has first been obtained. No cutting in the under side of a floor timber shall be allowed for any reason.

### FLOOR LOADS

*Sec. 16.* All new or renewed floors and stairs shall be so constructed as to carry safely the weight to which the proposed use of the building may subject them, and every permit granted shall state for what purpose the building is designed to be used; but the least capacity per superficial square foot, exclusive of materials, shall be:

For floors of houses for habitation, sixty pounds.

For office floors and for public rooms of hotels exceeding five hundred square feet, one hundred pounds.

For floors of retail stores and public buildings, except school houses, one hundred pounds.

For floors of schoolhouses, other than floors of assembly rooms, sixty pounds, and for floors of assembly rooms, one hundred and twenty-five pounds.

For floors of drill rooms, dance halls and riding schools, two hundred pounds.

For floors of warehouses and mercantile buildings, at least two hundred pounds.

For flat roofs, fifty pounds.

For stairs, landings, platforms, and fire escapes, seventy pounds.

The loads not included in this classification shall be determined by the inspector.

The full floor load specified in this section shall be included in proportioning all parts of buildings designed for warehouses, or for heavy mercantile and manufacturing purposes. In other buildings, however, reductions may be allowed as follows: for girders carrying more than one hundred square feet of floor, the live load may be reduced ten per cent. For columns, piers, walls and other parts carrying two floors, a reduction of fifteen per cent of the total live load may be made. Where three floors are carried, the total load may be reduced by twenty per cent; four floors, twenty-five per cent; five floors, thirty per cent; six floors, thirty-five per cent.

The inspector may prescribe the maximum loads which may be imposed upon the floors of existing buildings.

### ROOF TIMBERS

*Sec. 17.* In all buildings which are eighteen feet or more in width, rafters for pitched roofs shall be not less than two by six inches and larger if required to carry the load, and spaced not more than twenty inches on centers; in buildings which are less than eighteen feet in width the size of rafters may be determined by the inspector. Valley rafters shall be of such sizes as the inspector shall prescribe, having due regard to the length and the area of the roof to be supported, but in no case shall be less than two by eight inches.

Flat roofs shall be timbered the same as floors.

### ROOF COVERING

*Sec. 18.* The roof of every building hereafter erected shall have a fireproof or fire-resisting covering, and on every roof which has its existing covering replaced the new covering shall be fireproof or fire-resisting.

Existing roofs covered with non-fireproof or non-fire-resisting material may be repaired or altered from time to time with the same kind of material, but the total area so repaired at any one time shall not exceed twenty per cent of the area of such roof.

If it is necessary to repair more than twenty per cent of the area of any such roof the whole area shall be re-covered with fireproof or fire-resisting material as prescribed for new buildings. The following shall be considered as fireproof coverings: slate, metal, concrete slate and asbestos slate, or other fireproof roofing as inspector may approve.

The following shall be considered as fire resisting: five-ply tar and gravel roofing, asphalt shingles on pitch roofs or other materials as inspector approves.

Every building erected within eight feet of the line of any street or traveled way, and having a pitched roof sloping toward the same, shall be provided with suitable snow barriers or guards upon such roof to prevent the snow sliding therefrom. Whoever violates the above provision shall be liable to a fine not exceeding twenty dollars.

## CHIMNEYS

Sec. 19. All chimneys hereafter erected shall be built from the ground of brick, stone or other fireproof non-heat-conducting materials, and shall be built plumb, or nearly so, so as to be self-sustaining; provided, however, that brick flues may be securely built into the brickwork of walls of the buildings to which they are hung, when the walls are not less than twelve inches thick; and provided also that, upon special permission, first obtained from the inspector, other forms of support may be used with such special safeguard as he may require; and provided also that the matter of construction of chimneys in small wooden buildings other than dwelling houses, not more than one story and a half in height, shall be left to the decision of the Inspector of Buildings, but must be constructed in accordance with his instructions.

All brick chimneys shall be built of hard-burned brick. Said chimneys shall be topped out with brick or stone, laid in cement, and the topping out shall not have more than two inches projection unless the bricks are covered by a cap of stone or other non-combustible material in one piece, properly secured, and approved by the inspector; and in no case shall a nail be driven into the masonry of any flue.

All chimneys with exterior walls less than eight inches thick shall be lined with vitrified clay flue lining. In cases where chimneys are built with concrete four-inch thick flue lining must be used.

No smoke pipe in any building with wooden or combustible floors or ceilings shall hereafter enter any flue except at a distance not less than twelve inches from said floor or ceiling; and in all cases where smoke pipes pass through stud or wooden partitions of any kind, whether the same be plastered or not, they shall be guarded by a soapstone ring having a thickness radial to said pipe of not less than two inches, and extending through said partition; and in cases where smoke pipes pass through wood work of any kind in such near proximity to the brickwork of the flue that the space between said woodwork and flue is inaccessible, said pipe shall be guarded by a soapstone ring or thimble, or its equivalent, having a thickness of at least two inches, and extending from the outer face of said woodwork

to a point at least two inches within the brickwork of the flue, in which it shall be firmly set.

All hearths shall be supported upon trimmer arches of brick, stone, or reinforced concrete, or upon bars of iron supporting a bed of brickwork, and shall be at least twelve inches longer than the width of the fireplace openings and at least eighteen inches wide in front of the chimney breast. Wooden centering supporting a trimmer arch shall be removed before plastering.

Brickwork of all grates, fireplaces and ranges shall be not less than eight inches thick, and when it adjoins a wooden or stud partition, shall have at least two four-inch walls with at least two-inch air space between. No woodwork shall be secured to the brickwork of any flue. Open fireplaces shall have fireproof foundations.

#### HEATING APPARATUS AND FIRE-STOPS

Sec. 20. (a) No furnace or range set in masonry shall hereafter be placed, or its location changed in any building, without a permit from the Inspector of Buildings, who shall prescribe such regulations for the setting or placing thereof as in his judgment the public safety may require.

(b) The top of every heating furnace or steam boiler shall be kept at least one foot below the lowest part of the ceiling or floor next above it, and protective covering shall be placed on such ceiling.

(c) All register boxes shall be set in soapstone or similar borders not less than two inches in width and said boxes back of such border shall be surrounded by an open space of not less than one inch in all directions and when required by the inspector the timbers and flooring surrounding the boxes shall be protected by sheet metal.

(d) All elevator wells and light shafts, unless built of brick, must be filled in flush between the wooden studs with fire-resisting materials, or lined with metal, or plastered on metal lathing, and all woodwork inside of such wells or shafts lined with tin plate lock jointed.

(e) Where floor beams rest on partition caps or on girders, wall girts or wooden sills, the space between such beams shall

be filled, from the caps, girders, girts or sills to four inches above lining floor, solid with brick and mortar or other fireproof material.

(f) When floor beams in frame buildings rest on ledger boards, there shall be fire-stops at each floor of brick and mortar, resting on bridging pieces cut in between all studs.

(g) In brick buildings the space between the furring on the outside walls or brick partitions shall be filled flush with mortar for a space of five inches in width above and below the floor beams of each story.

(h) Where basement or other flights of stairs are enclosed by partitions of brick or wood, the spaces between the studs or wall furrings shall be so fire-stopped with brick or mortar as to effectually prevent any fire from passing up between such studs or furring back of the stair stringers.

(i) All flights of stairs between two floors shall have two smoke-stops built between the stringers.

(j) No pipes for conveying hot air or steam shall be placed nearer than one inch to any woodwork unless protected by suitable guards or casing of incombustible material.

(k) No wooden flue or air duct of any description shall be used for heating or ventilating purposes.

(l) A space of at least one inch shall be left between all woodwork and the chimneys, with the exception of floor timbers, which shall be not less than two inches from the chimneys, and around all hot air, steam and hot water pipes; the spaces around chimneys and pipes where they pass through the floors shall be stopped with metal or other fire-resisting material. Steam and hot water pipes shall have metal sleeves and collars.

(m) All channels and pockets for gas, water and soil pipes shall be made smoke-tight at each floor.

(n) The space around all metal or brick ventilating ducts shall be fire-stopped at each floor with metal or other fire-resisting material.

(o) Where a building is occupied above the first floor for tenements or a lodging house and the lower story is occupied for stores, or other purposes not connected with the upper floors the stairways leading to such upper floors shall be enclosed with

brick walls or with wooden partitions filled solid with brick laid in mortar, or other fire-resisting material, and plastered on both sides on metallic lathing, and all doors in such partitions shall be fireproof metal-covered doors.

(p) In all buildings hereafter erected, the cellar ceilings shall be plastered on wooden or wire laths, or made smoke-tight by some other method in order to prevent a draft in case of fire.

#### SAFEGUARDS DURING BUILDING OPERATIONS

Sec. 21. Whenever any person is about to erect or alter the exterior walls of a building, within five feet of the line of a street, he shall cause the portion of the site of the building bordering upon the street to be enclosed by a proper fence not less than four feet high and at least five feet from the line of such building; and the fence shall be made as much higher as the Inspector of Buildings shall direct, and the same shall be maintained until all liability to accident from falling material ceases; he shall also maintain a proper walk around said fence as long as the sidewalk is obstructed, and he shall maintain proper lights, at both ends of such enclosed space, from sunset to sunrise. In erecting any building, no persons shall place, deposit or suffer to remain in any street or highway, any lumber or other building material, rubbish, or remains of any old building for a longer period than may be necessary for the work which may be going on; and in case such material, rubbish or remains of an old building shall necessarily remain after dark, a sufficient light shall be placed over or near the same, and kept lighted from sunset to sunrise. All rubbish from the erecting or repairing of any building, or the removal of an old building, shall be carried away by the person so erecting, repairing or removing such building, at such time as the Board of Public Works may direct; and in case of neglect or refusal so to do, it shall be removed by the Board of Public Works, at the expense of such person. Any person violating any provision of this section shall be liable to a penalty of five dollars.

#### PLUMBING

Sec. 22. No plumbing work, except to maintain operation of an existing system, shall be done in any building until a per-

mit therefor has been issued by the Building Inspector. Any person desiring a permit shall file an application with the Building Inspector, together with such plans and specifications or descriptions as the latter may require. Said plans or descriptions shall be forthwith transmitted to the Plumbing Inspector, who, when satisfied that they comply with the requirements of the State Examiner's rules and regulations of the Board of Health, shall so report to the Building Inspector. The Building Inspector shall thereupon issue a permit which shall be posted in a conspicuous place on the premises and remain so posted until the work is completed. There shall be a fee of \$2 for each permit, payable when issued.

All plumbing work in buildings hereafter erected and all alterations in existing buildings shall be done in accordance with the then latest edition of the State Examiner's Rules, and the inspection of such work shall be done by an Inspector of Plumbing appointed by the Inspector of Buildings, pursuant to Section 11 of Chapter 142 of the General Laws.

#### GAS FITTING

*Sec. 23.* Gas fitting shall mean the work of putting together any fittings, pipes, fixtures or other appliances which are to contain gas for heat, light or power purposes All gas fitting shall be done in accordance with a permit to be granted by the Building Inspector.

All gas piping and fittings shall be tested twice in the presence of the Inspector of Plumbing or his representative free of charge to the Town; and twenty-four hours notice to the inspector of all appointments for testing may be required. The first test shall be made before the piping is concealed, painted or coated; the second, after the gas fitters have completed their work and all work which could disturb the piping has been finished; but it may be before the fixtures are installed. All pipes must stand an air pressure of two pounds per square inch, as indicated by a column of mercury four inches high, for a period of five minutes without any drop. Said inspector shall issue a certificate to the gas fitter after the second test if it proves satisfactory. No gas pipe or fitting shall be covered or

concealed from view until both tests have been made and such certificate has been issued; nor shall any public gas company set a meter or supply gas in any building or turn on the gas in any new fit, in any new or old building, until the piping fixtures and appliances and the work performed have been approved by said inspector and a certificate issued. In buildings that have been damaged by fire the gas piping and fixtures shall not be used or the gas turned on until authorized by said inspector.

Outlets for fixtures shall be securely fastened; all outlets not covered by fixtures shall be left capped, and the number of burners for each outlet shall be marked on the builders' plan.

Pipes laid in a cold or damp place shall be properly dripped, painted with two coats of red lead and boiled oil, or covered with felting.

Swing brackets shall have globes or guards to prevent burners from coming in contact with the wall. Bracket outlets shall be at least two inches from window or door casings.

Stop-pins to cocks shall be screwed into place.

The Board desires to bring to your attention the rapid increase in the development of property, as you will observe by referring to the report of the Inspector of Buildings.

The Town has passed through a period of very extensive and rapid development during the year 1922. Building operations have provided housing accommodations for four hundred and eighty-six additional families. Permits were issued amounting to \$2,622,490. We are citing these facts to show whereby it is necessary to call for increased appropriations in nearly every department of the Town. This immense development calls for new streets, new water mains, new sewers; and enlargement of the police force and fire department. Even to the administrative end of the Town it means that more money will have to be expended for the proper maintenance of all these departments.

#### FIRE DEPARTMENT

You will note in the report of the Chief of the Fire Department certain changes recommended as to its organization, also an increase in the number of men to be employed, thereby

putting into the department an additional company, for which the Department has on hand the apparatus required.

The Board desires to call to the attention of the citizens the recommendation of the Chief, that a committee be appointed to look into the requirements of the Fire Department as to the providing of a fire-proof building to house the apparatus and the Fire Alarm System. This seems to the Board to be an important necessity of the Department.

The Board has given the report of the Chief of the Fire Department much consideration and has endorsed the plans of the Chief and reported to the Finance Committee their recommendation that the amount asked for be appropriated.

#### POLICE DEPARTMENT

In the Police Department, the recommendation of the Chief that the Force be enlarged to meet conditions that exist, to wit; the patrolling of additional territory on account of recent developments of the Town, and the handling of the ever increasing problem presented by Motor Traffic.

This report has received the endorsement of the Board and, after much consideration, they have reported to the Finance Committee, the recommendation of the Chief, that the amount of money asked for be appropriated.

#### POOR DEPARTMENT

The request for an appropriation for this Department is \$2,000 more than it was last year. It is impossible to make a statement of just how much money it will take for the proper functioning of this Department. The increase asked for seems to be in proportion to the increased requirements of such a Department.

#### ROBBINS MEMORIAL TOWN HALL

In addition to the appropriation made for this Department for 1921, it became necessary on account of the deterioration of certain material that was used in the roofing of this building, to apply to the Finance Committee for a transfer of funds sufficient to make these repairs. The Finance Committee agreed with the Board, that it would be unwise to make any

expenditures for refinishing the inside of the building until the roof was put in proper condition, therefore they agreed to transfer \$4,375 from the Reserve Fund, which with the \$1,625 that had been allowed for the refinishing of the inside made the sum of \$6,000, the cost of making these repairs on the roof, therefore, the Board are asking for money to be supplied this year for refinishing the woodwork throughout the building, re-tinting the walls and ceilings in a number of the offices and corridors, in order to keep the building up to a standard that a building of this class requires. There has been very little money used for refinishing since the building was occupied, about ten years ago.

The Board is recommending the installation of an oil-burning apparatus for use in this building. There is no surplus boiler capacity, and in cold weather, when the hall is being used, it is impossible to heat the whole building at a proper temperature for comfort. The Board feels that if oil is adopted, its use will be more economical than coal and the pressure of steam can be kept at an even standard, avoiding the fluctuation that necessarily occurs when burning coal fuel.

#### MENOTOMY HALL

This hall does not require any extra outlay for the present season.

Other property owned by the Town, that is rented, does not require any necessary large outlay.

#### INSURANCE

The insurance on Town property is now looked after by an insurance agent, who is appointed by the Board of Selectmen.

During the year, the Town buildings have been re-appraised, and as a result of this the total insurance has been somewhat reduced. The present system of handling the insurance through an agent has proved to the Board to be very satisfactory and will be continued for the present.

#### ASSESSORS

During the year, Mr. Omar W. Whittemore, who had served the Town long and faithfully as chairman of the Board

of Assessors died. It was necessary for the Board of Selectmen and Board of Assessors to make an appointment. This was done, resulting in the appointment of Mr. Charles H. Gannett to serve until the annual election in 1923.

#### PENSIONS

During the year two names have been added to the pension list. There are two applications before the Board at the present time. The Board feels that this is something which is bound to grow and like several of the other appropriations, the amount cannot be absolutely fixed.

#### PROPERTY TAKEN

In the taking of the land and buildings on the triangle at Massachusetts Avenue and Broadway, there has been no settlements made to date. Suit has been entered against the Town on one of the pieces of property, which is now awaiting court proceedings. Two other suits have been entered. The four houses on the property taken for engine house are being rented and will probably be held by the Town for renting until such time as it becomes necessary to occupy the land for municipal purposes.

## REPORT OF FIRE DEPARTMENT — 1922

---

ARLINGTON, December 31, 1922.

*To the Honorable Board of Selectmen of the Town of Arlington.*

Gentlemen: I respectfully submit my annual report of the Arlington Fire Department for the year ending December 31, 1922. The number of companies, equipment and manual force, excepting the dropping of one permanent man is practically the same as last year. The equipment is in good condition excepting new tires and minor repairs, which will have to be made the coming year. A new chief's car has been added to equipment the past year, a chassis having been secured and permanent men of department doing the work of rebuilding, giving to the Town a car in keeping with the rest of equipment at a very small cost.

The Fire Stations are in as good condition as can be expected considering age of buildings. These buildings were never intended for motor use, therefore repairs of an extended nature will have to be made in near future. The policy of engineers has been to make repairs only where actually needed, thinking that a new station at Centre would be built in near future.

The department has answered the following number of alarms the past year: total alarms, 253; bell alarms, 112; still alarms, 135; verbal, 6; outside help given, 6 calls; outside help received, 17 calls. For further details see records of department.

### VALUES OF PROPERTY ENDANGERED

Value of buildings	\$178,450.00
Value of contents	54,700.00
Total value	233,150.00

Insurance on building	\$195,050.00
Insurance on contents of buildings	52,200.00
Total insurance	247,250.00
Insurance paid on building	19,042.55
Insurance paid on contents	11,621.90
Total insurance paid	30,664.45
The appropriation for year was	\$27,835.00
Amount of appropriation expended	27,536.28
Amount of appropriation unexpended	298.72
Amount of receipts of department	100.00

For further details see report of auditor.

#### RECOMMENDATIONS

I recommend the appropriation of \$33,187 for the ensuing year, this is an increase of \$5,352 over last year and is accounted for by the following change in department which I strongly recommend: that a permanent Chief and three more permanent men be appointed. Owing to the duties, which have been placed in hands of the Chief of the Department, it is impossible for a Call Chief to do the work in a manner satisfactory to the citizens of the Town and as the Town is fast growing in population, there should be one more company formed and put in service at the Broadway Station. This would make two pieces of apparatus in active service at each station with six permanent men at each station. I also recommend the appointment of four permanent captains, taken from the present permanent force, and appointment of four lieutenants from call force. These additions would cost \$4,256.

I also recommend that a committee be appointed at coming Town meeting to investigate the building of a new Fire Station and Fire Alarm building to be built on land recently obtained by Town, situated on Massachusetts Avenue, Franklin Street and Broadway; said committee to report at a future meeting.

I wish to thank your Honorable Board for the courteous manner in which you have received me in my official capacity.

I also wish to thank all other officials of the Town, who have so willingly given their service when called upon.

To my assistants and members of the department, I give special thanks for the able manner in which they have answered all demands made upon them bearing out the old motto, "In union there is strength."

Respectfully submitted,

WALTER H. PEIRCE,  
*Chief.*

#### MISCELLANEOUS BUSINESS

Accidents reported, 258. Ambulance calls, 29. Residences reported vacant and given special attention, 171. Cases investigated, 677. Dead bodies cared for, 3. Defective hydrants reported, 5. Defective electric lights, 90 Arc, 161 Incadecent, 251. Defective wires reported, 39. Defective water pipes, 11. Defective gas pipes, 2. Details for public assemblages, 21. Dogs killed, 32. Search warrants for stolen property served, 1. Search warrants for obscene books served, 1. Wagon calls, 124. Sales of automobiles recorded, 520.

In comparison with other cities and towns surrounding, Arlington has been particularly fortunate in the small amount of serious crime during the year; house burglaries have been less than other years.

For breaking and entering and larceny we have arrested 36 persons and have recovered property to the value of \$2514 as against \$4524 reported as stolen.

Automobile thieves in Arlington have been fewer; we have had during the year four stolen from our streets valued at \$2350 and have recovered them. We have also recovered automobiles valued at \$7500, reported to us as stolen from other places.

The liquor laws have been rigidly enforced wherever any evidence of illegal sales or keeping could be obtained. We caused 28 complaints to be made against persons for the violation of the liquor laws and have secured 26 convictions.

We ask the hearty co-operation of our citizens in the enforcement of the liquor laws.

#### THE AUTOMOBILE TRAFFIC

The time has arrived when this phase of police work must be given the serious attention it deserves and we must have the proper number of men stationed constantly in the streets, for the proper protection of the men, women and children that are crossing and re-crossing our streets. It is a fact that just on ordinary days in season, the number of automobiles crossing the railroad tracks at the Centre, averages 1,500 per hour and on Saturdays, Sundays and Holidays, this number is almost doubled and at times a grave menace to pedestrians who have to cross our streets; this condition applies to all of our main thoroughfares.

There have been reported 183 collisions of automobiles in which no personal injury was involved, 64 automobile accidents in which persons were more or less injured and there was in addition to this, 6 persons killed by automobiles.

We have caused the automobile laws to be rigidly enforced and have made 780 complaints at Court for the infraction of the automobile and traffic laws; of this number 17 were complained of for operating their automobiles while under the influence of liquor.

During the year we "held up" 5,000 automobile drivers and gave to each a circular entitled, "Are you a careful driver?" These circulars were presented to us by the Motor Age Publishing Company and contained facts, figures and photographs which should have made an impression on every driver receiving

them of his duties toward the public while operating a motor vehicle.

It is in my judgment necessary to have officers stationed on fixed posts in the streets, for nothing but the direction of traffic; these men should be in distinctive uniform as is worn by the Boston Traffic Squad and they should be detailed to be placed at the following points:

At the junction of Park Avenue and Massachusetts Avenue; at the junction of Brattle Street and Massachusetts Avenue; at the junction of Mill Street and Massachusetts Avenue; at the junction of Mystic Street and Massachusetts Avenue; at the junction of Medford Street and Massachusetts Avenue; at the junction of Lake Street and Massachusetts Avenue; at the junction of Mystic Street and Summer Street.

This with the present number of men we are unable to do and I respectfully urge at this time that three new men be appointed that we may be better able to protect our citizens from injury by automobiles and make our streets safer for our children.

I recommend and urge that the sum of \$3,600.36 be appropriated for three additional men at this time.

#### THE POLICE SIGNAL SYSTEM

Our Gamewell Police Signal System was installed in 1906 and has been in constant use day and night for 17 years.

During this time the officers while on their routes have recorded over 600,000 duty calls and have sent in about 22,000 telephone calls; an accurate record is kept of every duty and telephone call received over the system.

Since 1906 great improvements to this system looking to increased efficiency have been made by the Gamewell Company the most notable is the installation of a bell and light to be attached to the boxes whereby day or night should emergency require (and it often does) we could call one or all of the patrolmen to a box on their route for quick action. At the present time we can communicate with patrolmen on their routes only when they ring in a duty call.

The cost of installation of this valuable adjunct to our

system would be about \$5,000, and I sincerely believe it would be of immense value could it be installed and I recommend that the installation of this valuable addition to our police signal system be given careful consideration.

There should be installed at or near Mt. Vernon and Gloucester Streets a police signal box; this section is growing rapidly and at the present time there is no police signal box on any of the streets leading from Massachusetts Avenue to Eastern Avenue. I have taken this matter up with our Superintendent of Wires, Mr. Mason, who will ask that a proper amount be appropriated to install a box at this point.

There have been 56,859 duty and 2,528 telephone calls received at the station from the patrolmen on their routes over this system during the year. We have twenty boxes and they are located at the following points:

*Box Number*

- 12 at the junction of Henderson Street and Massachusetts Avenue.
- 13 at the junction of Winter Street and Massachusetts Avenue.
- 15 at the junction of Tufts Street and Massachusetts Avenue.
- 16 at the junction of Lake Street and Lakehill Avenue.
- 141 at the junction of Broadway and Massachusetts Avenue.

### DEPARTMENT AUTOMOBILES

In July, 1919 the police motor patrol wagon was put in commission; it now stands in need of immediate repairs and repainting and I recommend that the sum of \$350 be allowed for this purpose.

In May of last year we purchased a Ford Touring car for the department use and I would recommend that instead of expending money on repairs necessary that it would be economy to turn this car in for a new one and pay the difference, and I ask that the sum of \$250 be allowed for this purpose.

For garage hire and upkeep of motor vehicles I ask that the sum of \$1,200 be allowed for this purpose.

### APPROPRIATIONS

For the salary budget: I would recommend that the sum of \$40,172.66 be appropriated for the salaries of the present force and \$3,600.36 for three additional men making a total of \$43,773.02 for the salary budget.

For the telephone budget: I recommend that the same amount be appropriated as last year namely, \$275.

For the general expenditure budget: I recommend that the same amount be appropriated as last year namely, \$1,650.

For the automobile budget: I recommend \$350 for necessary repairs and repainting the motor patrol wagon, \$250 for a new Ford Touring Car, \$240 for garage rental and \$960 for the upkeep and maintenance of motor vehicles for the year, making a total of \$1,800.

### RECAPITULATION

For salaries, the sum of	\$43,773.02

In conclusion, I wish to extend to your Honorable Board my sincere thanks for the loyal support given this department throughout the year.

To His Honor, Arthur P. Stone, Justice of the Third District Court and his assistants, Special Justices Robert Wolcott and Edward A. Counihan, the Clerk of the Court, William A. Forbes, and Miss Lucy Hutchins of the Probation Department, my deep appreciation for the great assistance they have been to us in the many arduous duties they have been called upon in the name of Justice, Law and Order, to perform.

Respectfully submitted,

THOMAS O. D. URQUHART,  
*Chief of Police.*

## REPORT OF INSPECTOR OF ANIMALS

---

Arlington, January 1, 1923.

*To the Honorable Board of Selectmen:*

Gentlemen: I herewith submit my report as Inspector of Animals for the year ending December 31, 1922.

The annual spring inspection of animals and stables is as follows:

Stables inspected	79
Cattle inspected	147
Swine inspected	110
Goats inspected	15

In the stables where improvements were recommended, it was necessary to make two follow-up visits to see that the recommendations were carried out.

During the year, twenty-three quarantines were issued. Twenty-one of these were for dogs who had either bitten some one or had come in contact with rabid dogs. There were eight positive cases of rabies in the Town during the year.

The two remaining quarantines were issued for cows suspected of tuberculosis.

Before animals are released from quarantine, the Inspector must make a second visit by order of the Director of the Division of Animal Industry to ascertain the condition of same. Reports of visits are then forwarded to the Director.

Respectfully submitted,

F. HOLDEN SMITH, V.M.D.,  
*Inspector of Animals for Town of Arlington.*

## REPORT OF TOWN PHYSICIAN

---

Arlington, January 1, 1923.

*To the Honorable Board of Selectmen:*

*Gentlemen:*

I hereby submit a report of the work done by the Town Physician for the year ending December 31, 1922.

Number of calls at home, outside poor	384
Number of calls at office, including vaccinations	127
Emergency calls, police station and accidents	32
Patients taken to Insane Hospital	1
Confinements	2

The work in this department is still increasing due at this time to lessened coal rations, restricted heat and crowding in small quarters of many families who depend on the town physician to care for them. So that more time than ever is needed for their care and welfare. The district nursing association has been most kind in doing all they could, as have also the trustees of the Symmes Arlington Hospital.

Respectfully submitted,

CHARLES A. KEEGAN, M.D.

## GYPSY AND BROWN-TAIL MOTH DEPARTMENT

---

*To the Honorable Board of Selectmen:*

I herewith submit my report as Superintendent of Moth Department for year ending December 31, 1922.

The condition of the Town as a whole, especially the public shade trees, has greatly improved during the past year. The greatest amount of work has been done in the residential section.

While the presence of the gypsy moth is to be discouraged even in places remote from thoroughfares and residences, it is to be particularly suppressed in those places where the nuisance is especially annoying to persons. Natural causes have aided in the suppression of the moth problem, especially in the woodlands. Some colonies which a year ago were very vigorous have almost disappeared, while in other cases active colonies have developed where least expected. That section of Arlington Heights west of Park Avenue from the Winchester to the Belmont line, the infestation of the gypsy and also the brown tail has greatly increased. This condition is due to wind spread and also on account of the severe storm in November which made it impossible for me to complete my winter work of creosoting.

One of the greatest problems in connection with the moth work is keeping the expense down in the fact of the increasing cost of labor, materials and supplies. The use of a bean sprayer and the small X.L. greatly aided in this as they could be used under circumstances where it was unpracticable to use the large Fitzhenry-Guptill sprayer.

On account of the increasing demand for arsenate of lead in the control of the cotton weevil and also for the blight in celery, the price will advance this year. Last year we had 1,500 pounds of lead on hand and it was only necessary to purchase about 1,000 pounds. This year we shall be obliged

to order at least 3,000 pounds and at the advanced price, I would recommend that \$6,500 be appropriated this year.

I thank your honorable Board for the confidence placed in me and the real estate owners for their coöperation with me during the past year.

The following is a statement of expenditures and location of work done the past year:

*To the Honorable Board of Selectmen:*

*Dear Sirs:*

I herewith submit my report on care of Town House Grounds.

The total amount expended was \$984.69, of which \$19.50 was spent on the grounds at the Old Town Hall. The water pool was in such a bad condition that it was necessary to have the cracked seams chiseled and filled with cement, also the bottom and sides recoated. This work was done in the early part of the summer by Mr Bacon and it remained in a perfectly tight condition throughout the season. The hand lawn mowers are old and it is impossible to keep an edge on the knives. I would advise the purchase of two eighteen-inch Quaker Mowers the coming year.

The following is a statement of expenditures:

The report of the Commissioners having charge of the cemeteries and the above funds is herewith submitted for the year ending December 31, 1922.

The records of the Milk Inspector, Sealer of Weights and Measures, Dog Licenses, and Town Clerk's Fees have been all examined and proper amounts have been paid to Collector and County Treasurer.

The Overdrafts and Deficits shown amount to \$5,152.98 to be provided for.

Detailed reports of all accounts and financial statements and trial balance are herewith submitted.

## BOARD OF HEALTH

---

Previous to the year 1894 the functions of the Board of Health were vested in the Board of Selectmen. This report therefore is the twenty-eighth since its establishment as a separate department, and a summary of the several features coming under its supervision for the year ending December 31, 1922, follows:

At the annual meeting held March 6, 1922, Mr. Alfred W. Lombard was reelected a member of the Board for the term of three years, and was sworn to the faithful performance of his duties by the Town Clerk. The Board held a special meeting on the evening of March 6, and organized with Alfred W. Lombard as Chairman for the ensuing year. The Board meets on the first Monday evening of each month at 7.30 P.M. During the year twelve regular and two special meetings were held. At the regular monthly meeting of April 6, the following appointments were made for the year ending April 1, 1923.

### APPOINTMENTS

WILLIAM H. BRADLEY, Agent and Clerk.

EZEKIEL PRATT, M.D., Physician to Board.

EZEKIEL PRATT, M.D., Bacteriologist.

ALICE R. WATERHOUSE, R.N., Nurse (part time).

W. H. GULLIFER, D.M.D., Dental Operator.

MARION K. PEIRCE, Assistant to Dental Operator.

ALFRED W. LOMBARD, Inspector of Milk.

THOMAS J. GREEN, Inspector of Slaughtering. (Resigned.)

F. HOLDEN SMITH, V.D.M., Inspector of Slaughtering.

After more than a year of study, investigation and observation, the Board decided to recommend the adoption of the Schick test as a means of determining the susceptibility of

persons, particularly children, to diphtheria, and in cases where a positive reaction occurs to suggest the immunizing treatment with toxin-antitoxin. In order to bring this service to the attention of the townspeople clinics have been held at the rooms of the Arlington District Nursing Association; with the result that more than two hundred persons have received the treatment. The Arlington Doctors' Club and the Arlington School Committee have endorsed the treatment and voted to coöperate; the School Committee placing at our service the school buildings and school organization. We feel that this treatment, if carried out on a large scale, will be a decided step in preventing the spread of one of the most dangerous of contagious diseases.

The second year of the Dental Clinic has been most successful and it has amply proven its usefulness as a public health measure.

The Tuberculosis Dispensary has held two sessions weekly during the year with a physician and nurse in attendance. Many persons have been examined and much advice and aid given.

The Laboratory is open daily and is under the supervision of a competent bacteriologist. Fresh supplies of antitoxin, vaccines, etc., are kept constantly on hand and distributed free of charge to physicians. The report of the bacteriologist will show the nature and the amount of the work done.

A survey has been made of the Succor Brook area between Mill Street and Park Avenue, and the result indicates that the valley sewer must be installed very soon, otherwise this brook will become a serious menace to public health. There is also need for the extension of the public sewer in several sections of the Town, particularly to include the sections known as Morningside and Interlaken, the lower end of Medford Street, to include Hayes Street and intersecting streets, Bow Street, Pine Ridge Road, and the development known as High Haith in the Highland Avenue section. These, with the new developments which will undoubtedly be opened up in the spring will mean large expenditures, and we would respectfully recommend that liberal appropriations be made for sewer construction. Another nuisance of long standing, and one which we believe should be

abolished, is the burning of rubbish on the Town dumps. We have requested the Board of Public Works in making up its budget for the coming year to take into consideration the necessity of installing an incinerator for the burning of this rubbish, and we trust a sufficient appropriation will be made available for this purpose.

With the exception of a slight epidemic of diphtheria during the early fall, and an outbreak of scarlet fever in December, health conditions have been very satisfactory, and the complaints which have been received were not of a serious nature. This speaks well for the spirit of coöperation shown by our citizens in public health work. In closing we wish to express our thanks to the Arlington Welfare Council, the Arlington District Nursing Association, the School Committee, and all others who have helped in so many ways. The report of the Agent, Physician, Nurse, Dental Clinic, and the several inspectors follow.

## REPORT OF THE DENTAL OPERATOR

*To the Board of Health, Arlington, Mass.*

Gentlemen: I herewith submit the report of the work performed in the Dental Clinic for the year ending December 31, 1922.

Number of cases treated	1,404
New cases	181

Beginning with the opening of the schools in September we went through the second grade of the Parochial and Public schools and examined the teeth of the children, numbering in all five hundred and forty-seven. Out of this number we found that three hundred and eighty-five needed immediate dental treatment and notified their parents to that effect. During the month of November we were fortunate in obtaining the loan of an exhibit from the Department of Public Health, Division of Mouth Hygiene pertaining to the care of the teeth. The requests for the loan of this exhibit are so great we were only able to keep it for a short time, and therefore could not show it in all the schools. We believe the exhibit to be of such educational value in regard to the care of teeth that we hope to be able to obtain the loan of it the coming year for a period sufficiently long to enable us to show it in all the schools.

The Clinic has had a very successful year, the receipts just about covering the cost of the material used. Each child receiving treatment is instructed as to the care of their teeth and furnished with a tooth brush and paste at a nominal price.

Respectfully submitted,

MARION K. PEIRCE,  
*Assistant to Dental Operator.*

## MILK INSPECTOR'S REPORT

JANUARY 29, 1923.

*To the Board of Health, Arlington, Mass.*

*Gentlemen:* I herewith submit my annual report as Inspector of Milk for the year ending December 31, 1922.

The outstanding feature in milk inspection work during the past year has been the improvement noted in milk plant construction and equipment. Eight dealers have installed bottle sterilizers, and four more have equipped with holding pasteurizers. Four small dealers have made provisions for boiling bottles. So, at the present time all bottles used as containers for milk sold in Arlington are sterilized.

Two-thirds of Arlington's milk supply is at present pasteurized, and from present indications it will be only a short time before ninety per cent of our milk supply will have been so treated. This is a decided forward step and makes for public health and safety.

A summary of the year's work follows:

## REPORT OF INSPECTOR OF SLAUGHTERING

JANUARY 1, 1923.

*To the Board of Health, Arlington, Mass.*

Gentlemen: I herewith submit my report as Inspector of Slaughtering.

As my predecessor was in office until April 1, 1922, this report starts on that date.

The hours spent on inspecting of slaughtering were two hundred and twenty hours and fifteen minutes. The quality of animals brought up for slaughtering were of the best as the figures below show:

Calves killed	1,624
Calves condemned	2 — also one forequarter and pluck.
Hogs killed	4
Hogs condemned	0

In the case of those condemned, it was due to the fact that the calves died in transit. The forequarters and pluck were condemned because lesions of tuberculosis were found in lungs.

Respectfully submitted,

F. HOLDEN SMITH, V.M.D.,  
*Inspector of Slaughtering.*

## REPORT OF SCHOOL COMMITTEE FOR THE YEAR ENDING 1922

---

*To the Citizens of the Town of Arlington:*

Your School Committee herewith submits its annual report for the year ending December 31, 1922. At its March meeting the Committee was organized for the year with A. H. Rice as chairman, and H. A. Snow as secretary. The Committee's regular meetings are held on the third Tuesday of each month; in addition, ten special meetings of the full Committee have been held during the year, with a much larger number of meetings of sub-committees. Mr. Charles C. Warren, whose term expired in March, 1922, was unable, because of the pressure of other responsibilities, to continue for another term, and retired from the Committee, after a long and faithful service to the Town. The vacancy was filled by the election of Mr. Elliott R. Barker.

During the past year the school system has suffered loss by the death of a teacher with a remarkable record of service and by that of its veteran janitor. Miss Mary F. Scanlan, Principal of the Crosby School, passed away on April 19, 1922. She had nearly completed her forty-ninth year of service as a teacher in the Arlington schools. Her high qualities, as woman and teacher, will make her memory an inspiration to the large number of her former pupils. On October 5, 1922, Mr. Michael E. Callahan, janitor of the Locke School, died, after a faithful service of twenty-two years.

Early in January Mr. George C. Minard submitted his resignation as Superintendent of Schools, with the request that it take effect in June. In accepting the resignation of Mr. Minard, the Committee passed the following resolutions:

"The Arlington School Committee desires to record its deep appreciation of the loyal and efficient service rendered by George C. Minard as Superintendent of the Arlington schools.

Among the qualities that belong to a school administrator of distinction, we recognize as of peculiar importance a high

educational ideal, a vision of ultimate and larger ends to be attained, a patience in meeting the irritations and obstacles that surround a man who sets before himself a goal to be reached, and wisdom and tact in dealing with the varied personnel represented in a public school system.

These qualities the Committee found Mr. Minard to possess in a high degree. It remembers with especial appreciation the fact that to them he added a spirit of helpfulness and an instinctive and unfailing courtesy, that will remain as a grateful memory with the townspeople, the Committee, the teachers and the pupils whom he served.

The Committee desires to express to Mr. Minard the wish for an enlarging success and satisfaction in the new field of work which he has chosen."

The Committee went to work at once to secure for the Town the services of a worthy successor to Mr. Minard. For more than four months it endeavored, by personal interview and by correspondence, to appraise the merits of over seventy names submitted for its consideration. Finally at its May meeting the Committee elected unanimously Mr. Chester A. Moody of New Haven. Mr. Moody began his service on July 1; the Committee has been greatly pleased with the energy, capacity and good judgment displayed by him, in dealing both with programs of education and with the financial administration of the schools.

The need of additional school accommodations is obvious from the present crowding in some of our school buildings and the steady increase of our school population. It was for that reason that your Committee asked for, and obtained at the last Town Meeting, the appointment of a committee to report on this problem. In the Crescent Hill district the need is imperative: both the Cutter and the Locke schools, in order to provide for the children in that district, are forced to make an excessive use of the platoon system. In the Crosby School district, additional accommodation must be provided within a year or two. This year, through the courtesy of the Library Trustees, we have been able, by using the library room at certain hours of the day, to relieve to a degree the congestion; such an arrangement, however, can provide only temporary

relief. At the High School, over-crowding was foreseen, and provided against, by the adoption last year of the 6-3-3 plan.

The natural depreciation of school property crowded for the most part to capacity has made the work of our Repairs Committee continuous and exacting. Fire protection, also, has been systematically increased; a special hydrant has been installed near the main entrance to the High School, and fire-alarm boxes have been placed, near the entrance, in each school building. The Committee wishes to call the attention of the citizens to the desirability of reclaiming, as soon as possible, the Town land in the rear of the High School. Within a short time this land will be greatly needed for the necessary expansion of High School work.

The adoption of the salary schedule, made possible by the support given to your Committee by the Voters of the Town, has materially lessened the turnover in our teaching force. Teachers' salaries, however, are reported by the State Board of Education as still on the increase, and it is clear that present salary schedules will, for some time to come, have to be maintained.

The Committee is at present seriously engaged in an attempt to quicken the spirit of work and raise the level of scholarship, particularly in the higher grades. Here is a matter in which all citizens of the Town can assist us: students in the upper grades of our schools cannot form proper habits of study, nor contribute to the success of their class recitations, without *home study*, pre-arranged for and faithfully and systematically pursued. Your Committee earnestly bespeaks the serious consideration of this point by all parents. The school may interest the student in his studies; it may helpfully direct his activity and aid him in developing his powers; it cannot guarantee to develop in him the *spirit of work*, unless it is aided by the steady interest and support of his parents.

It is a pleasure to acknowledge the uniform courtesy and spirit of co-operation received by your Committee at the hands of the other Town boards and the Town officials.

Respectfully submitted,

A. H. RICE, *Chairman.*

Among the donors to the library during the year were Mr. Alfred Bacon, Miss Esther Bailey, Cambridge Public Library, City of Cambridge, Dr. George W. Cutter, Mr. John A. Dadekian, Mrs. R. L. Fisher, Mr. Thomas Gray, Estate of Miss M. J. Jacques (former resident), Mrs. E. C. Prescott (collection of etchings), Mrs. Harold Rice (310 post cards of different countries), Mrs. Peter Schwamb, Mrs. Edward C. Turner and Mrs. Everett P. Turner.

Thanks are due Mr. Charles S. Parker for continuing to print gratuitously the lists of New Books in the columns of the *Arlington Advocate*. He has also, as usual, given a complete file of that paper for the year.

Exhibitions from the Library Art Club have been as follows:

January. No. 277. Mother Goose by F. Richardson.

February. No. 278. Pictures for Children by Jessie Willcox Smith.

March. No. 279. Merry Animals by Cecil Aldin.

April. No. 280. Uniforms of the United States Army.  
1775-1918.

May and June. No. 281. Shakespeare and Stratford.

June and July. No. 282. The Western Front. Part 1.

July. No. 283. Masters of Color. Part 2.

August. No. 284. Flags of the United States.

September and October. No. 285. Monuments of Belgium.

October and November. No. 286. "Guerre finie! Boche napoo!"

November and December. No. 287. Arabia and Syria.

The use of the Reading Room and Stack Room for study and reference work cannot be adequately shown by figures. All sorts of questions are asked by young and old, in the library and by telephone. Requests for information come also from other towns.

Co-operation with teachers is still further desired.

Attention should be called to the bulletin boards near the counter on which are displayed attractive book-jackets and other items of interest. A set of Photo Flower postals has

been shown monthly according to the flowers then in bloom and have been much admired.

At the suggestion of the Bureau of Education, the Children's Librarian used the State Certificate Reading Lists among twenty-five school children of different grades. Much interest was shown, the children writing brief reports of books read and receiving a certificate which was displayed in the room later.

The Trustees take great pleasure in drawing attention to the fact that Miss Elizabeth J. Newton has completed a period of continuous and faithful service as Librarian for fifty years. This is an extraordinary record, and is a source of pride for us all.

Mention should also be made of the long service of Judge James P. Parmenter as Trustee, who for thirty-nine years has given freely of his time and intelligence to the interests of the Library.

It is hoped that the Town will continue to provide for its liberal support.

Respectfully submitted,

CYRUS E. DALLIN,

## TOWN ENGINEER'S REPORT

---

ARLINGTON, MASS., January 1, 1923.

*To the Joint Board of Selectmen and Board of Public Works.*

Gentlemen: Herewith is respectfully submitted the annual report of the Engineering Department for the year ending December 31, 1922.

The Engineering Department furnishes all the Town departments and committees with such information, plans, designs, estimates and data of an engineering nature as they may require on work being done, or contemplated, also keeps careful notes, measurements and location of new work, additions, changes and extensions as they may occur, and properly records the same for future reference by maps, plans or profiles.

The north side of Massachusetts Avenue from Medford Street to the Old Town Hall, five hundred and thirty-five (535) linear feet, the south side of Massachusetts Avenue from opposite Tufts Street to Wyman Terrace, eight hundred sixty-eight (868) linear feet, and the south side of Massachusetts Avenue from Fairmont Street to Magnolia Street, five hundred thirty-one (531) linear feet, was reconstructed with Compressed Hassam Concrete. The excavated material was used for subgrading Kimball Road, Daniels and Gloucester Streets.

The south side of Massachusetts Avenue from Paul Revere Road to the Boston Elevated Car House, seven hundred (700) linear feet, was reconstructed with Warren Brothers' Bitulithic.

Kimball Road from Mystic Street to Walnut Avenue six hundred eighty (680) linear feet, Gloucester Street from Highland Avenue to Mount Vernon Street, six hundred eighty-nine (689) linear feet, and Daniels Street from Massachusetts Avenue to Appleton Street, five hundred (500) linear feet were constructed under the betterment act with asphalt.

Linden Street from Park Avenue six hundred (600) feet easterly was reconstructed with asphalt.

Three thousand ninety-seven (3,097.0) square yards of granolithic sidewalks, and three thousand one hundred eighty-five (3,185.0) linear feet of granite curb were laid.

A total length of six thousand two hundred seventy-one (6,271) linear feet of main sewers were constructed and two hundred twenty-five (225) house connections were made; work having been done by the Board of Public Works employees.

Nine thousand eight hundred sixty (9,860) linear feet of water mains were laid and eleven thousand nine hundred thirty-five (11,935) linear feet of water services constructed.

Prior to the reconstruction of Massachusetts Avenue an adequate storm drain system was installed. For details and cost of construction see Board of Public Works Report.

A twenty-four (24) inch storm drain was installed in Orvis Road to relieve surface water conditions in that section.

Board of Survey studies were made for the layout of streets on the land bounded by Massachusetts Avenue, Highland Avenue, Menotomy Rocks Park and Bartlett Avenue; on the area bounded by Massachusetts Avenue, Mt Vernon Street, Gloucester Street and Highland Avenue; on the area bounded by Medford Street, Parallel Street, Franklin Street and Hamlet Street; on the area bounded by Wall Street, Spring Street and Arlmont Street; and on the land bounded by Hawthorne Avenue, Grand View Road, Eastern Avenue and Cedar Avenue.

Twelve (12) Board of Survey plans were verified by this Department and approved by the Board of Survey.

Street numbering plans of all new streets have been made, new buildings located, and numbers assigned.

Plans have been made by the various companies and corporations and filed in the Town Engineer's office, showing the locations of structures for which permits were granted by the Joint Board during the year.

The Engineering Department has prepared plans and performed miscellaneous services for all the Town departments and for the Town Counsel.

Annexed to this report is a table giving the names of all streets in the Town, public and private, lengths, widths and total mileage; also a table of general statistics pertaining to the Town.

GEORGE E. AHERN,  
*Engineer and Superintendent of Public Works.*

## INSPECTION OF WIRES IN BUILDINGS

Eleven hundred and forty-five (1,145) applications for permits for electrical construction were issued, one thousand nine hundred and seventeen (1,917) inspections were made; and one thousand and fifty-seven (1,057) installations were approved during the year. There were no fires caused by defective wiring, however, there was one fire at 364 Massachusetts Avenue, caused by a worn and much abused cord leading to a floor lamp, which caused no little damages; and I take this opportunity to advise householders and others to see to it that all portable cords are renewed when broken or badly worn.

## POLES AND WIRES ON STREETS

The Edison Company and the Telephone Company installed seventy (70) new poles, and replaced sixty-six (66) poles during the year. Both companies have done excellent work at renewing wires and making repairs caused by the sleet storm of 1921.

## FIRE ALARM SYSTEM

There were two (2) Fire Alarm boxes installed: Box 73 on Massachusetts Avenue, near Park Avenue; and Box 84 on Gray Street, corner Robbins Road. Fire Alarm Box 64 was moved from Park Avenue, corner Paul Revere Road, to Park Avenue, corner Appleton Street.

The aerial wires have been very carefully renewed and repaired where defects existed. Several thousand feet have been taken down, which had been abandoned due to extensions on the underground cables.

## UNDERGROUND CABLES

Five thousand one hundred (5,100) feet of lead-covered cable were installed during the summer in underground conduits, replacing old rubber-covered wires in the following locations:

Three thousand (3,000) feet six (6) conductor in Pleasant Street from Fire Alarm Headquarters to Gray Street.

Two thousand one hundred (2,100) feet twelve (12) conductor in Massachusetts Avenue from Franklin Street to Tufts Street.

Six hundred (600) feet four (4) conductor in Medford Street from terminal opposite Chestnut Street to Box 26, corner Lewis Avenue.

An appropriation is asked for to cover the cost of installing ten (10) additional Fire Alarm boxes that are very badly needed due to growth of central and outlying districts.

#### POLICE SIGNAL SYSTEM

The Fire Alarm post on Massachusetts avenue, corner Winter Street, was replaced with a combination shell; and Police Box 13 was installed on same post with Fire Alarm Box 15. The installation of Police Box 13 has been a great help to the Police Department. Box 26 was moved down Lake Street to a pole opposite Lake Hill Avenue; and Box 43 on Brattle Street was moved to pole corner Brattle and Summer streets to comply with the request of the Chief of Police.

An appropriation is recommended for an additional box to be located on Mt. Vernon Street, corner Gloucester Street.

Respectfully submitted,

W. E. MASON,  
*Superintendent of Wires.*

# REPORT OF THE BOARD OF PUBLIC WORKS

---

The Board of Public Works herewith submits its annual report for the year ending December 31, 1922.

At the Town Meeting held on March 6, 1922, Clarence A. Moore was elected member of the Board for the term of three years to succeed himself. The Board organized on March 6 with the choice of Thomas D. Kennedy as chairman.

## APPOINTMENTS

At a meeting held on March 20, Harold N. Willis was appointed Clerk of the Board, water registrar, purchasing agent and bookkeeper. April 3, George E. Ahern was appointed superintendent of Public Works. These appointments were for the year ending April 1, 1923.

## MEETINGS

The meetings are held Monday evenings. During the year the Board held forty meetings.

The following are the net expenditures made under the direction of the Board:

Highway Division	\$102,221.62
Sewer Extensions	31,387.25
Sewer Maintenance	5,363.31
Water Extensions	26,740.59
Construction of Daniels Street	5,865.38
Construction of Gloucester Street	6,709.58
Construction of Kimball Road	5,314.81
Water Maintenance (includes interest, Town Debt and Metropolitan Water Assessment)	80,494.09
Health Department	36,679.43
Snow and Ice	11,696.47
Grading Playground at Crosby School	40.39
Storm Drains	17,975.51
Edgestone	5,881.96
	<hr/>
	\$336,370.39

### HIGHWAY DIVISION

A total appropriation of \$104,000 was made for the Highway Division, sub-divided as appears in Table 1. Under the sub-division for Maintenance of Highways, streets of the Town were treated with tar and asphaltic oils at a cost of \$18,258.56, and repaired and cleaned at a cost of \$25,729.59. Six thousand, nine hundred twenty-four dollars and fifty-seven cents was expended on the care and repair of gravel sidewalks and \$571.08 on the repairs of permanent sidewalks. On the maintenance of storm drains and catch basins, \$4,672. was expended.

Owing to the lack of available funds, the permanent sidewalks of the Town have for years received but scant attention and now in many places require immediate care. The Board in its estimates for 1923 will ask for an appropriation for this work as part of the Maintenance of Highways sub-division.

With the \$23,000 available for this purpose, a section on the south side of Massachusetts Avenue, from Fairmont to Magnolia streets, 532 feet long and of an average width of 24 feet; on the south side from opposite Tufts Street to Wyman Terrace, 869 feet long and average width of 25 feet, and on the north side from Medford Street to the Old Town Hall, 536 feet long and average width of 30 feet, were reconstructed by the Simpson Brothers Corporation of the type of construction known as the Hassam Compressed Concrete Pavement. Also a section on the west side of Massachusetts Avenue, between Paul Revere Road and the Boston Elevated car barns, containing 1,021 square yards, was relaid by the Warren Brothers Company with a Warrenite Bitulithic Wearing Surface. Linden Street was also reconstructed.

The policy begun in 1917 of reconstructing each year a section of Massachusetts Avenue, should be continued without interruption. The old parts of Massachusetts Avenue built at a time when traffic was horse drawn, and of a class of construction not adequate to withstand the wear to which it is subjected by present day motor cars and trucks, have reached a condition where they require constant repairs, which are costly and are making the surface more uneven yearly. An appropriation of \$20,000 is requested for reconstruction of streets.

In connection with the reconstruction of parts of Massachusetts Avenue, storm drains were laid from Pond Lane to opposite Adams Street, and from Magnolia to Lafayette streets; also storm drains were constructed in Gloucester Street and at Orvis Road, from Newcomb Street to Spy Pond, and a drain connecting the ends of Wyman Terrace and Linwood Street and emptying into Spy Pond.

The Town accepted and made appropriation for the construction of Daniels and Gloucester Streets and Kimball Road, and this work was done under the direction of this Board. Reference to Tables 1 and 2 will show the details of maintenance, construction, storm drains and snow and ice expense.

The installation of edgestone was delegated by the Joint Board of Selectmen and Board of Public Works to this Board and 3,300.4 feet of granite curbing were laid at an expense of \$5,881.96.

The value of the property controlled by the Highway Division, January 1, 1923, amounted to \$39,323.71, classified as follows:

## REPORT OF THE JOINT BOARD OF SELECTMEN AND BOARD OF PUBLIC WORKS

---

The Joint Board of Selectmen and Board of Public Works herewith submit their nineteenth annual report of the work of the Board for the year ending December 31, 1922.

Mr. Nelson B. Crosby was elected a member of the Board of Selectmen at the Annual Town Election and by virtue of his position on that Board became a member of the Joint Board.

Mr. Clarence A. Moore was re-elected a member of the Board of Public Works and continued a member of the Joint Board by reason of that election.

The Board organized with Charles B. Devereaux as Chairman, and Thomas J. Robinson as Clerk.

The following appointments were made for the year ending April 1, 1923:

Town Counsel, Paul M. White.

Town Engineer and Superintendent of Public Works, George E. Ahern.

Superintendent of Wires, William E. Mason.

During the year the Board adopted the following rules and regulations governing the submission of plans to the Board for approval. The object of this rule is to further protect the future interests of the Town in the laying out of new streets in the undeveloped parts of the Town.

### RULES AND REGULATIONS RELATING TO THE PREPARATION OF PLANS SUBMITTED TO THE BOARD OF SURVEY

1. Applications for approval of plans must be made on forms obtained at the office of the Joint Board of Selectmen and Board of Public Works, and must be accompanied by plans.

2. All plans and profiles submitted to the Board shall be on racing cloth and drawn with waterproof ink. Size of sheets to be 22 x 30 inches. The scale of all plans must be forty (40) feet to an inch, the horizontal scale of all profiles must be forty (40)

to the inch, and the vertical scale six (6) feet to an inch. Only one street plan and its profile to be drawn on one street.

3. Plot plan showing complete lay-out shall be submitted on a separate sheet and must not show profiles or other conflicting data. The title of plot plan must show the location, owner's name, scale 40 feet to an inch, date and name and address of surveyor. The plan must show north point, areas of all lots, restrictions thereon, length of all lot lines, ownership and location of all abutting property, passageways, street lines, fences, walls, buildings, boundary monuments, natural monuments, water ways and natural drainage courses, also angles and distances to nearest established street line.

All buildings abutting on the proposed streets shall be shown both on the profiles and plans and the station of their side lines given.

4. All plans of streets submitted to the Board must be accompanied by profiles on same sheet showing elevations on each side line and center taken every fifty feet and oftener when necessary, to show abrupt changes in surface; Station "O" shall be the intersection of the longest side line of the proposed street and the side line of the street at which the proposed street starts. All elevations must refer to the Arlington Town Base. Profiles shall show the proposed grade of the edgestone line.

Before drawing the final plan the profile must be submitted to the Town Engineer for his approval of the proposed grades.

5. Boundary and street line distances and angles, the length and radius of all curves and the width of all streets and ways must be shown on plot plan. Traverse calculations and a copy of survey notes must be submitted to the Town Engineer.

Relative error of closure must not exceed 1.5000.

In all cases where streets or ways intersect with an included angle of less than eighty (80) degrees there shall be a curve of not less than twenty-five (25) feet radius laid out on the said acute angle side.

6. Plans showing streets less than forty (40) feet in width will not be approved. If a street laid out and submitted for approval does not extend through to another street, the plan must be of the whole street showing the connection with existing or other proposed streets.

7. Plans of proposed streets must show proposed drainage and disposal of surface water. Natural surface elevations must be shown on the plans by contour lines in brown ink, of five feet elevation intervals both sides of the street lines at least fifty feet back.

8. Names of proposed streets must be satisfactory to the Board and shall not be placed on the plans until they have been submitted and approved by the Board.

9. Before any street or way shall be approved by the Board, the petitioner shall cause to be placed in such street or way, at all angle points, at the beginning and end of all curves thereof, and at all intersections of streets and ways therein, stone bounds, of granite or suitable reinforced concrete, not less than four (4) feet in length and not less than six (6) inches in section.

Said bounds shall be set in said streets and ways on the actual lines, corners and angles, the top to be on the approved grades. Reference points to be drill holes in top of said bounds. Location of same to be indicated on the plan.

10. Upon the receipt of such plans, together with a petition for their approval, said Board shall give a public hearing thereon, after advertising such hearing once a week for two successive weeks in a newspaper published in said Town, the last advertisement to be at least two days before such hearing.

11. A deposit of fifteen (15) dollars will be required to be made with the Board of Survey at the time of filing the said petition. Any unexpended balance will be returned to the applicant, and any expense in excess of the said deposit must be promptly paid upon notice of the amount thereof.

In addition to the foregoing rules and regulations as to plans, the Board has established the following rules governing petitions for the laying out and acceptance of new streets. By those rules petitioners are enabled to know approximately what the ultimate cost of the construction of a new street will be and the conditions under which the Board could recommend the acceptance.

The petition is referred to the Town Engineer who makes up the estimated cost to each abutter. A date of hearing is set and notices sent to each abutter giving the estimated cost to be

assessed on his property. This notice contains request that the abutter signify in the blank space below whether or not he desires the street accepted and return notice to the Board before the date of hearing.

#### STREET LIGHTING

In accordance with the vote passed at the March meeting the all-night lighting schedule went into effect July 1, 1922. This all-night lighting is of very great assistance to the Police and street departments as well as to the citizens of the Town.

Amount appropriated for street lighting in 1922	\$16,325.00
Amount expended for street lighting in 1922	15,568.81
Unexpended balance	\$756.19

#### PERMANENT SIDEWALKS

The Joint Board is strongly of the opinion that a larger appropriation should be made each year for the installation of permanent sidewalks and curbstone. Three thousand ninety-seven (3,097) square yards of granolithic sidewalk and three thousand one hundred eighty-five (3,185) linear feet of granite curb were laid during the year. A larger amount of curbing has been put in than ever before, particularly on Massachusetts Avenue. The Board feel that as soon as finances permit curbing should be installed the entire length of Massachusetts Avenue. The old tar sidewalks throughout the Town are in badly disintegrated condition, and the time is not far distant when these sidewalks will become dangerous to traffic and it will be necessary to replace them with permanent walks.

The amount received from abutting owners as their portion of the cost of installing granolithic sidewalks during the year 1922 has been \$3,462.04.

#### DEVELOPMENT OF NEW TERRITORY

On November 28, 1922, plans for the development of the Locke Farm on Massachusetts Avenue, opposite the High School Building, were presented to the Joint Board for approval by the present owners, a group of public-spirited men who

purchased the property through the efforts of Thomas J. Robinson, Mr. Robinson realizing that this tract offers for development a most ideal residential section. The tract contains about forty-four acres, reaching from Bartlett Avenue to Highland Avenue, and stretching back over the hill to Menotomy Rocks Park. Gray Street will be continued through the tract, Irving Street meeting Gloucester Street, and Wildwood Avenue meeting Trent Street.

The plotting plan of this area shows lots of approximately ten thousand (10,000) square feet and is entirely restricted to residential purposes.

#### CAR BARNS

In May, 1922, the Boston Elevated Railway Company bought what is known as "the Tappan Farm" for car terminal purposes. A very strong objection to the use of this land for these purposes was made known, and a public hearing was given, at which people representing different sections of the Town were heard. Representatives of the Boston Elevated were present and Mr. Dana, General Manager, gave the prospectus.

In view of the opposition the railway company requested that the Joint Board recommend a site. The Board, after much consideration, proposed the Mill Street site, which was accepted by the company, but was not accepted by the Town at the Town Meeting held October 26, 1922, at which time it was presented by the expert engineer employed by the Board.

The Board has now submitted another location for consideration, which has not, as yet, been definitely decided upon.

It is the opinion of the Board that every effort should be made to minimize the injury to the Town from the locating a storage area within its limits. The Town should not be asked to bear too great a burden for transportation or even for its own transportation.

## REPORT OF PLANNING BOARD

---

During the past year it has been the intention of the members to fulfill the duties and obligations which were the object of establishing Planning Boards. The resignation of Miss Caira Robbins has been the only change in the membership.

Such recommendations as have been accomplished, with the approval and co-operation of the Town or its Executive Boards, are already recorded, and unnecessary to repeat. Both postponed and new problems — some already mentioned in previous reports — are yet to be considered at the proper time.

Outside of the apparent desirability of adopting zoning regulations, there are other projects which can be delayed until financial conditions may be more favorable. Meanwhile such assistance as the Board has received in the past has been appreciated, and it will always cordially welcome any suggestions for future action.

## REPORT OF BOARD OF PARK COMMISSIONERS FOR THE TOWN OF ARLINGTON

---

The Park Commissioners of the Town of Arlington beg to submit the following report:

They have, as heretofore, attended to the routine duties of that department as well as they could with the small appropriation allowed. In addition to that, at the annual Town Meeting, it was voted that the Park Commissioners take, by right of eminent domain, the land and buildings at 417 and 421 Massachusetts Avenue, for park purposes, which was done. As no appropriation was made at the October Town Meeting, the Park Commissioners were unable to go ahead further toward making a park out of the property taken, and they feel that inasmuch as this was taken for park purposes, the matter of tearing down the buildings and improving the land for a park should be done without delay. The property was ordered vacated and at present the buildings are an eye sore to the town, and we believe uninhabitable.

The Park Commissioners have received a petition signed by about 250 citizens of the Town to prepare plans and an estimate for the land in back of the High School for recreation purposes for the school children.

Respectfully submitted,

PARK COMMISSIONERS, Town of Arlington.

PERCY WYNDAL,  
*Chairman.*

## REPORT OF TREE WARDEN, 1922

---

*To the Citizens of Arlington:*

I herewith submit my report as Tree Warden for year ending December 31, 1922. The shade trees on our public streets are in a very good condition, when we consider the amount of damage caused by the storm in November. Many of our beautiful maples and elms were so badly broken that it was absolutely necessary to remove them. All the trees have been carefully pruned and all dead and dangerous trees removed or topped back and left in a safe condition. During the year four hearings were held on the removal of trees. In all cases, permits were granted but with one exception, an elm tree on Daniels Road. Seventeen large maples and twelve elms and one horse chestnut were removed by this department. Four elms on Massachusetts Avenue which were in front of stores and an obstruction, were removed by the owners of the stores, eleven poplars were removed by Board of Public Works on Kimball Road and one large elm removed on Medford Street by the Commonwealth of Massachusetts.

On account of the development of the Allen estate, it will be necessary to remove a few of the large elms on Massachusetts Avenue and Broadway, as they are directly in the entrance of new streets.

I recommended last year that no planting be done this year until we were able to definitely state the amount of damage done by the November storm.

To replace the number of broken small trees, also to set out trees on new streets accepted by the Town, it will take at least three hundred trees this year.

Automobiles are responsible for breaking many of our small trees and whenever I can obtain the number of the automobile, I have compelled them to pay damages. A gas leak was detected on Mystic Street, which caused the death of a fine maple tree. The Gas Company paid all costs of removal

and will replace a new tree this spring. The care of the several small parks, Russell School Park, Unitarian Church and the Robbins estate has been done by this department and the cost of the same paid to the Town by the different parties.

I would recommend that \$2,626 be appropriated the coming year.

In closing I wish to thank the Board of Selectmen and all citizens for their coöperation.

The following is a statement of expenses:
